

I am Grace and I am running to be an NUS Delegate for this year!

Responsibility is key when implementing such important policies within the university and union, and alongside the other elected delegates, I would make it my priority to ensure that the views of our students are represented through the votes we place and that adequate action is taken to make these policies a reality. Further, if I were elected, I would aim to make it a prime concern amongst the delegates to make it clearer to the members of our Student Union the importance of voting for change, and the influence their input can make. As a firm believer in this kind of representation, I look forward to the opportunity to collaborate with the other delegates in order to make the voices of the students heard, and maximise the great impact our student body can have.
