Any other comments? (e.g. projects you're working on, particular challenges etc.)

I am currently awaiting a list of departmental student representatives from the division, after which I plan to arrange a Teams channel, meetings, and reestablish the UG Joint Consultative Forum for MPLS – including understanding why it failed and making appropriate reforms.

I have also joined the Chemists' Joint Consultative Committee (CJCC) to give me more insight into issues being raised in the UG student body on the departmental level.
