University-Wide Sanitary Products Provision

Proposed by: Isabella Taylor, Magdalen JCR President

Seconded by: Helena Zhao, SU Women's Officer; Rhys Inward, Jesus MCR President; Alec Elias Siguardarson, Wadham MCR President; Alisa Brown, President for Welfare, Equity and Inclusion

Decision Type: Conference Mandate

Presented by: Isabella Taylor and Alisa Brown

Proposal

This motion mandates Oxford SU to lobby the University of Oxford to provide free period products in all Bodleian libraries toilets as a minimum standard, and to advocate for the same standard across all student facing departmental buildings.

The motion further mandates the SU to ask the University to introduce a clear, consistent and visible system for period product provision, including agreed responsibility for procurement, restocking, signage and reporting when products run out.

Which of the following aims does your motion or proposal hope to achieve?

- Provide the views of students and a position deemed to be representative of wider students at the University of Oxford

Conference Notes:

- Period products are a basic health and welfare need for many students. Lack of access can cause distress, embarrassment, disruption to study, and avoidable barriers

Item E	Oxford SU Strategic Plan Update Presented by: Oxford SU CEO
Item F	NUS Referendum Term Discussion Led by: CCR Chair
Item G	Student Life Subcommittee representative nominations Oxford SU would like to request nominations for 1 x JCR and 1 x MCR rep to sit on Student Life Subcommittee – committee meets twice per term to discuss issues pertaining to student life.
Below the Line These are items which will not be discussed unless requested. Members can request a discussion by request to the Chair (supresidentccr@oxfordsu.ox.ac.uk). The following motions did not pass at the previous Conference of Common Rooms due to not meeting quoracy. They will be submitted for CCR vote again without debate unless requested. If we do not meet quoracy a second time the motions will be deemed to have fallen.
